SOLBION®
Vitamin B1, B6 and B12 film coated tablet and injection

DESCRIPTION
Solbion® is a preparation of vitamin B1, B6 and B12. It is a combination of three water-soluble vitamins in an acceptable tablet/injectable formulation. It is formulated as a prophylactic or therapeutic nutritional supplement and it is indispensable for a normal course of nervous metabolism.

INDICATIONS
Solbion® is indicated where a deficiency of the relevant vitamins exists. It is also indicated for the treatment of:

- Chronic painful conditions like lumbago, sciatica, myalgia etc.
- Nociceptive pain due to sprains, fractures, burns, bruises etc.
- Different neuralgia (e.g. peripheral neuralgia, facial neuralgia, intercostal neuralgia).
- Diabetic neuropathy.

DOSAGE AND ADMINISTRATION
Solbion® may be administered in a dosage of 1-3 tablets daily or as directed by the registered physician.
Solbion® IM injection is injected intramuscularly (deep intragluteal). In severe cases 1 ampoule daily until the acute symptoms subside. For milder cases and follow-up therapy, 2 or 3 ampoules per week.

CONTRAINDICATIONS
Combination of vitamin B1, B6 and B12 is contraindicated in the individual known to be hypersensitive to any of its ingredients and patients on Levodopa therapy.

SIDE-EFFECTS
Generally well tolerated. However a few allergic reactions may be seen during treatment.

PRECAUTIONS
Cyanocobalamin should not be given before a diagnosis has been fully established because of the possibility of masking symptoms of subacute degeneration of the spinal cord.

Cyanocobalamin is not a suitable form of vitamin B12 for the treatment of optic neuropathies associated with raised plasma concentrations of cyanocobalamin.

**PREGNANCY AND LACTATION**
Solbion® can be used in pregnancy and lactation.

**DRUG INTERACTION**
Concomitant use of the combination of vitamin B1, B6 and B12 with levodopa may decrease the efficacy of levodopa.

**PHARMACEUTICAL PRECAUTION**
Store in a cool (below 25°C) and dry place, away from light. Keep out of reach of children.

**PACKAGING**
Solbion® tablet: Box containing 5 strips of 10 tablets each. Each film coated tablet contains vitamin B1 (thiamine mononitrate USP) 100 mg, vitamin B6 (pyridoxine hydrochloride USP) 200 mg and vitamin B12 (cyanocobalamin USP) 200 mcg.

Solbion® IM injection: Box containing 2 strips of 5 ampoules each. Each ampoule (3 ml) contains vitamin B1 (thiamine hydrochloride USP) 100 mg, vitamin B6 (pyridoxine hydrochloride USP) 100 mg and vitamin B12 (cyanocobalamin USP) 1 mg.
